SUMMARY OF INTERVIEW TOPICS

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

S I R:

Applicant has requested a personal interview with the Examiner for the above-identified application which has been tentatively scheduled for Tuesday, February 26, 2008, at 9:00 am.

The purpose of the interview is to have the inventor discuss the obviousness rejections over Nilsson ('576) or Nilsson ('365) in view of Morse. More particularly, the inventor will discuss why the references are incompatible with each other and one with ordinary skill in the art would not consider combining them, why even if the references could be combined they would not result in the claimed invention, and why the invention yielded unexpected results, satisfied a long-felt need and other reasons why the claimed invention is not obvious over the combinations cited by the Examiner.

Respectfully submitted,
